

MAKE OUR BOOK

'Make Our Book' makes it easy and fun to turn children into published authors. We are an online service that lets your school publish a book of your children's work.

WHAT DO WE GET OUT OF IT?

A bespoke, professionally-produced paperback like this one. It's a chance to give children a sense of enormous pride, whilst evidencing your hard work in literacy and communication to current and future parents, with an unmatched artefact to treasure for a lifetime. At the same time, it helps you deliver against National Curriculum requirements, particularly the five E's Levels of Progression for Using ICT at Key Stage 1 and 2, and the Levels of Progression for Writing (Communication) at Key Stage 1 and 2.

HOW DOES IT WORK?

Children write their pieces in class, or during Book Week, which you enter to our online system. We assemble and check the files, and arrange the book's print and delivery. Usually, friends and family pay for copies, though sometimes the school pays.

HOW MUCH DOES IT COST?

It depends on the number of pages in the book, which is determined by the number of children who will write a piece, and the number of copies printed. Here's an example:

Number of pages	Number of copies	Indicative cost per unit	Indicative total cost
120	200	£10	£2000
240	200	£12	£2400

HOW DO WE PAY FOR IT?

Usually our schools sell copies direct to parents, friends and family at around £10-15 a copy, which means there's no cost to the school. If you want to give away copies of your book for free, then the school will pay. Alternatively, you can use the book as a fund-raiser, adding a sum on top of the book costs - say, £2 to £5 - which can go towards your favoured charitable cause.

In other words, as well as giving children something to be incredibly proud of, it doesn't have to cost you a penny, and it can actually raise funds.
